Report on the half day workshop on “How to improve the Usage of IEEE Xplore Digital Library” on August 19, 2019 in the DSP Lab, Department of ECE, IGDTUW.

Department of Electronics and Communication organized a half day workshop to improve the usage of IEEE Xplore Digital Library on August 19, 2019 in the DSP Lab, Department of ECE, IGDTUW.

The workshop was aimed towards the benefit of the UG students, PG students and research scholars in terms of their research. The participants were given information about the time saving features to use IEEE Xplore Digital Library. In this workshop, special emphasis was given on the access of IEEE Xplore Digital Library remotely, finding the relevant results using advanced search method, building a library of articles for future reference. It provided a platform to find solutions for wide-ranging issues faced by the students while searching the best suited paper with precision and relevancy out of almost 40 lakh full text articles from the digital library. The purpose of supporting and encouraging students for their research was served to a great extent by this workshop as they sought insight and advice of Senior Training Manager of IEEE and EBSCO.
